

Key Projects Delivered

Core Banking Solution (CBS)

Implemented account, loan, and transaction modules while optimizing queries to reduce transaction processing time by 40%. Developed role-based access control to ensure secure banking operations.

Technologies/Tools: SQL Server, C#, ASP.NET Core, Entity Framework, Crystal Reports

ERP Systems for Garments, Trading, and Manufacturing

Built centralized ERP platforms to manage HRM, CRM, PF, Loans, Attendance, and operational workflows efficiently.

Technologies/Tools: C#, ASP.NET Core, SQL Server, Entity Framework, Crystal Reports

Inventory Management Systems / Stock Management Software

Developed real-time stock tracking with barcode/QR integration, multi-warehouse support, detailed forecasting, and reporting.

Technologies/Tools: C#, ASP.NET Core, SQL Server, Barcode/QR SDK, jQuery

Attendance & Payroll Management (with biometric integration)

Created comprehensive attendance and payroll solutions, including biometric integration, leave management, and salary disbursement automation, reducing manual HR workload by 50%.

Technologies/Tools: C#, ASP.NET Core, SQL Server, Biometric SDK, Crystal Reports

bKash Payment Gateway API Integration

Integrated bKash and bank payment gateways for seamless transactions, developed secure REST APIs for third-party integrations.

Technologies/Tools: ASP.NET Core, REST API, JSON, Payment Gateway SDKs, SQL Server

Financial Reporting, Analytics, and Export Modules

Developed integrated dashboards for real-time banking insights, automated regulatory compliance reports, and optimized report generation time by 30%.

Technologies/Tools: SQL Server, Crystal Reports, Power BI, ASP.NET Core

Legal Case Management Platforms

Designed custom software to manage legal case files, client records, court schedules, and automated reminders.

Technologies/Tools: C#, ASP.NET Core, SQL Server, Entity Framework

Medical Stock & Equipment Software

Built systems for tracking medical stock, equipment allocation, and usage reporting in hospitals and clinics.

Technologies/Tools: C#, ASP.NET Core, SQL Server, jQuery, Bootstrap

Custom API Gateway

Developed secure API gateway for internal and third-party integrations, enabling tokenized

authentication and scalable request handling.

Technologies/Tools: ASP.NET Core, REST API, JWT, SQL Server

Account Management Software

Developed a comprehensive system for managing client accounts, tracking financial transactions, and generating detailed reports.

Technologies/Tools: C#, ASP.NET Core, SQL Server, Entity Framework, Crystal Reports

Smart Real Estate ERP – Property, Booking, Installment, Accounts

Centralized platform to manage property listings, customer booking, installment tracking, and improved operational efficiency.

Technologies/Tools: C#, ASP.NET Core, SQL Server, jQuery, Bootstrap

Investments & Loan Management Automation

Automated entire loan lifecycle including origination, credit assessment, approval, and disbursement, integrating AI-driven credit scoring.

Technologies/Tools: C#, ASP.NET Core, SQL Server, AI/ML Integration

Digital Banking Channels – Mobile & Internet Banking

Designed secure APIs for mobile & internet banking platforms, implemented tokenized login, and scaled performance to support 10,000+ active users.

Technologies/Tools: ASP.NET Core, REST API, JWT, Angular, Xamarin, SQL Server

WordPress Projects – Prova Technology & Shayan Enterprise

Developed responsive websites for business and e-commerce applications.

Technologies/Tools: WordPress, PHP, HTML5, CSS3, JavaScript, WooCommerce

Website & Web Application Development

I craft modern, responsive, and brand-aligned websites for **Corporate, E-commerce, Travel, Blogs, NGOs, News, Education, and Event platforms**. My websites are dynamic, SEO-friendly, and cross-browser compatible, ensuring an optimal user experience across all devices.

Development Stack & Technical Skills

 **Frontend:** HTML5, CSS3, Bootstrap, JavaScript, jQuery

 **Backend:** ASP.NET MVC/Core, PHP

 **CMS:** WordPress (Elementor & Elementor Pro)

 **Databases:** Microsoft SQL Server, MySQL

 **E-commerce:** WooCommerce Integration

 **Responsive Design:** Mobile-first, Accessibility Focused

 **Additional Technical Skills:** ASP.NET MVC/Core, PHP, C#, JavaScript, SQL, Crystal Reports, RDLC, SSRS, WordPress, GitHub, Postman, Visual Studio
